BUILDING WITH PASSION

# Introduction

MHZ is one of the upcoming Start-ups disrupting the logistics landscape by providing effective and efficient flow of goods and information across the supply chain in the most economical way.

The current ecosystem was operating in a red ocean with up to ten players, poor service delivery and lack of customer focus. We intend to disrupt the status quo to be the partner of choice for anything logistics. MHZ is the catalyst to connect the world to the middle east.

We want to facilitate trade across nations and make the world smaller and economies larger.

MHZ is not just another freight forwarder, it wants to be the platform where the goods flow timely, easily and cost efficient manner.

# Vision & Mission
